

Integrating Research Infrastructure for European expertise on Inclusive Growth from data to policy

FIFTH CALL FOR VISITING GRANTS

In November 2018, the second call for transnational access is made available on the InGRID website. In this call, visiting grants are offered for 13 of the InGRID research infrastructures: IEPM (Center for Demographic Studies, Barcelona), POLC (TÁRKI, Budapest), SOFI (University of Stockholm), CSB (University of Antwerp), HIVA (KU Leuven), CEET (CNAM, Paris), WageIndicator (CELSI, Bratislava), DSMAE (UNIPI, University of Pisa), S3RI (SOTON, University of Southampton), AIAS (University of Amsterdam), CMIST (University of Manchester), IRISS (LISER, Luxembourg), and LIS (Luxembourg). These free-of-charge visits can contain between 5 and 15 working days and visitors receive a partial reimbursement of travel costs and a subsistence allowance.

Each of the host institutes has expertise in and access to leading European (comparative) datasets or expertise in working with specialised statistical techniques for social sciences research. During a visit users get the opportunity to work together with experts from the host institution on their own project, receive access to, and support and guidance in the use of the data, advice on methodological questions and on the progress of their project. Candidates can apply for a visiting grant through the online application form.

Deadline for applications: 16 December 2018

CALL EXPERT WORKSHOP 'EXTENDING INGRID INTEGRATED DATASETS AND TOOLS ON VULNERABLE GROUPS WITH EMPLOYMENT CONDITIONS DATA'

28-29 March 2019, Panteion, Athens (Greece)

The workshop's aim is to bring together experts who have been working on different research aspects of the employment and living conditions of vulnerable groups (children, youths, elderly, disabled, migrants and LGBT). The topics to be covered in the workshop include: quality of life and employment conditions; unemployment, flexible employment and precariousness of vulnerable groups; social protection measures and employment conditions of vulnerable groups; social dialogue on the living and working conditions of vulnerable groups; other specific issues concerning the living and employment conditions of vulnerable groups.

Deadline for applications: 15 January 2019

UPDATE ON THE INGRID E-PORTAL

One of the aims in the InGRID research infrastructures is to harmonise existing data sources to make them more accessible for researchers. In this framework, we are currently working on an online platform where metadata will be available on relevant

Call
visiting grants

Call
expert workshop

data sources in social sciences. The e-portal serves other researchers by providing an overview of existing sources. Information will be collected on scope, methods, access possibilities and so on. Through a well-developed search tool, visitors should be able to find the most suitable data for their project in no time.

The portal will be launched early 2019.

More information is available on the [project website](#).
