

## Scientific Conference: Inclusive Futures for Europe BEYOND Industrie4.0 and Digital Disruption

### BEYOND4.0 First Scientific Conference

The conference is organised by BEYOND4.0 Consortium and Bulgarian Academy of Sciences along with European School of Social Innovation and European Workplace Innovation Network. The event is an opportunity for the social sciences researchers to exchange recent results in relation to Digital Transformation's impact on work and employment. Members of the BEYOND4.0 project will present and discuss project's findings thus far. Also relevant contributions from other EU projects and research incentives on the Digital Transformation are encouraged to take part in order to synergize and synthesize results.

The scientific forum will include keynote plenary sessions: Commissioner Mariya Gabriel (Innovation, Research, Culture, Education and Youth), Prof. Mariana Mazzucato (UCL), Prof. Paul Ostermann (MIT) (TBC), Prof. Steven Dhondt (TNO), Prof. Chris Warhurst (University of Warwick), Prof. Olli Kangas (University of Turku), Dr. Glenda Quintini (OECD) and six parallel sessions.
