

## Integrating Research Infrastructure for European expertise on Inclusive Growth from data to policy

### FIRST NEWSLETTER IN INGRID-2

We are pleased to announce the launch of our first InGRID-2 newsletter which will be available on the project website.

This issues covers the following topics:

- a short presentation of the InGRID research infrastructure and the new InGRID-2 project;
- new calls for upcoming InGRID events;
- partners in the picture: an interview with partners at TÁRKI (Hungary) and University of Trier (Germany);
- community news with publications and calls for papers;
- announcement of the second call for visiting grants.

Thanks for stopping by. Enjoy!

Consult the newsletter [online](#).

### SECOND CALL FOR VISITING GRANTS

In October 2017, the second call for transnational access will be available on the InGRID website. In this call, visiting grants are offered for 11 of the InGRID research infrastructures: IECM (Centre d'Estudis Demogràfics, Barcelona), POLC (TÁRKI, Budapest), DIW-SOEP (Berlin), EUROMOD-ISER (University of Essex), SOFI (University of Stockholm), CSB (University of Antwerp), HIVA (KU Leuven), CEET-CNAM (Paris), CELSI (Bratislava), UT (University of Trier), UNIPI-DEM (University of Pisa). These free-of-charge visits can contain between 5 and 15 working days and visitors can receive a partial reimbursement of travel costs and a subsistence allowance.

Each of the host institutes has expertise in and access to leading European (comparative) datasets or expertise in working with specialised statistical techniques for social sciences research. During a visit users get the opportunity to work together with experts from the host institution on their own project, receive access to, and support and guidance in the use of the data, advice on methodological questions and on the progress of their project. Candidates can apply for a visiting grant through the online application form.

**Deadline for applications:** 11 December 2017

### DATA FORUM ON 'HARMONISATION AND USES OF EUROPEAN MICRODATA'

During the four-year project, InGRID partners will organise eight data forums to reach out to data providers, research users and stakeholders to discuss challenges of particular data types and suitable actions to answer them. Topics of the data forums are data on household finances, census data, the WageIndicator websurvey data, and national working conditions surveys.

The data forum on 'Harmonisation and uses of European microdata' will bring together representatives from European statistical institutes and researchers with strong experience in cross-national comparative data to discuss innovation and solutions to integrate labour force survey microdata for the study of poverty, work, and living conditions. The data forum will consist of six sessions of five presentations each, alternating between sessions of data users and data producers.

Participation is only on invitation.
